CUSTOMER INSTALLATIONS

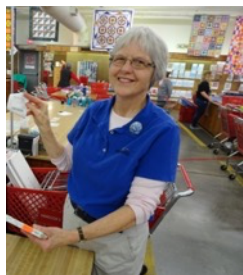

The Body Shop Outlets Europe & US, Nike Stores Europe, Pieology, Superdry worldwide, Mothercare, L'Occitane, The Range, Hancock's of Paducah & Shell gas and convenience stations.

CASE STUDIES

Pieology

Pieology, creates quality, custom pizza. PrintPad 970 was integrated with the POS to coordinate POS receipt to pizza ID tag number to improve speed of table delivery and order accuracy.

Hancock's of Paducah

Hancock's is the largest fabric retailer in the world. PrintPad 970's were used to turn the handwritten receipt into a bill of materials to facilitate faster order processing, increased staff productivity and greater customer face time.

Labeling, Ticketing and Receipt Printing Product Brief

APPLICATIONS

Price tags, Product tags, food labels, shelf labeling, product marking, Point of sale receipts, Convenience Store Labels, Cannabis Dispensary labeling, coupons, amusement park/theater ticketing, wristbands, event admission, access control, dining-order fulfillment, receipt/coupons, gaming, parking lot ticketing and mark down labels.

BENEFITS

CloudBox goes beyond traditional receipt, ticketing and labeling solutions. It can provide a total solution or can work with most legacy printers already in place.

PrintWorx:

POWERED BY:

LABEL & TICKET EXAMPLES

PRINTPAD 970

- Intelligent standalone, networked or cloud-connected desktop printer solution scaling to multiple devices, and/or multiple locations.
- Works with virtually any label printer – direct or networked.
- Connectivity options include USB or Ethernet.
- SQL database management for high content and complex labeling which can pulling data from multiple files. For example, food labeling can include food allergens, ingredients, nutritional value, sell by date, and standard barcode pricing - all which can be in different file structures.
- 4 USB ports for printer, scanner, scale or keyboard connection

PRINTBOX 9000

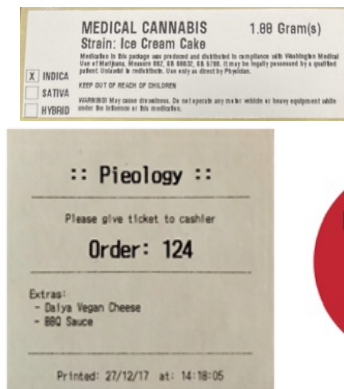

- Desktop and Mobile printing can be accessed from the same PrintBox by using ANY device with a web browser: PC, RFID terminal, Smartphone or Tablet
- Linux-Based with SQL database implementation and management as standard.
- Offers Web App connectivity for mobile and/or desktop Printing in hospitality, Convenience store, Cannabis and retail.

PRINTSTATION 9000

- Linux-based with SQL database integrated in a single housing with a 7" or 10" Touchscreen. Optional Scanner & Keyboard connections available.
- Standalone on multi-user, networked solution for Desktop and Mobile printing. Linux-based with full SQL database on-board.
- Same functionality as the 9000 series PrintBox but with the convenience of an integrated touchscreen.

PrintWorx: On Device & Cloud Solutions: SaaS

Having successfully sold combined hardware and software labeling solutions since 2006 the latest PrintWorx application has always been able to be hosted in the cloud. Electrone & CloudBox are now offering **Cloud Labeling as a service** using the PrintWorx platform hosted in the cloud and **based on a monthly fee**.
